JOINT MASTER’S DEGREE STUDY — SUSTAINABILITY IN AGRICULTURE, FOOD PRODUCTION AND FOOD TECHNOLOGY IN THE DANUBE REGION (DANUBE AGRIFOOD MASTER — DAFM)

This study programme focuses on sustainable development as a competent response to the upcoming challenges of climate change, and the protection and promotion of livelihood. It uses the Danube region as a model for all riparian regions worldwide.

CONTACT:

e-mail: info@agrifoodmaster.eu

WHO CAN APPLY?

Applicants who hold a BSc degree from one of our University partners. Full partners offering the DAFM Joint Degree are the Hungarian University of Agriculture and Life Sciences (MATE) (HU), the Czech University of Life Sciences Prague (CZU) (CZ), the University of Natural Resources and Life Sciences, Vienna (BOKU) (AT), the Slovak University of Agriculture Nitra (SUA) (SK), the University of Zagreb (UNIZG) (HR), the University of Novi Sad (UNS) (RS), and the Banat University of Agricultural Sciences and Veterinary Medicine, Timisoara (BUASVMT) (RO).

For graduates of Bachelor’s programmes from non-partner universities, mastery of the following learning outcomes (evidenced by ECTS credits) is required for admission: At least 60 ECTS credits from the following areas (ECTS credits per area are minimum requirements, the total number has to equal 60 or more):

- Natural science: min. 20 ECTS credits
- Plant production: min. 10 ECTS credits
- Animal science: min. 10 ECTS credits
- Economic sciences: min. 10 ECTS credits
- Technological sciences: min. 8 ECTS credits

WHAT IS THE DURATION OF THE STUDY?

DAFM is a two-year Master’s programme taught in English.

WHEN DO THE CLASSES BEGIN?

The academic year usually begins late September/early October. As soon as we have established our academic calendar for 2022/2023, we will publish it on our website.

WHO CAN APPLY? The requirements for enrolment into the graduate study programme are: completed undergraduate (Bachelor’s or integrated) study of Petroleum Engineering or an equivalent three- or four-year study programme in the field of technical sciences, whereby the student has earned at least 180 ECTS credits.

WHAT IS THE DURATION OF THE STUDY? The proposed study programme duration is four (4) semesters. (Although the study programme has been envisaged as a full-time study programme, it will be possible to conduct certain courses partially or completely online, depending on the module and the number of enrolled students.) In order to complete the study programme successfully, a minimum of 120 ECTS credits should be achieved.
GRADUATE STUDY PROGRAMMES

The first year is a joint year for all students and they can earn 60 ECTS credits, while during the second year, students have a mandatory diploma thesis, two mandatory courses (Project Economic Evaluation and Business Management), and can choose one of three elective modules (Drilling and Production Engineering, Reservoir Engineering, Geoenergy Engineering and Management). Within the modules, the students enrol in mandatory and elective courses.

WHEN DO THE CLASSES BEGIN?

Academic year 2022/2023.

HOW CAN I APPLY?

Required documents include:
- Certificate of citizenship/passport photocopy,
- Original Certificate of a completed appropriate Bachelor’s/integrated study with a workload equivalent to that of 180 ECTS or higher, along with an official translation into English or Croatian (if issued in a different language to these),
- Original Transcript of grades for all years of the previous level of education (Bachelor’s/integrated study), along with official translations into English or Croatian (if issued in a different language to these),
- Proof of knowledge of the English language:
  - IELTS Academic (minimum score 6.5 in all segments) or
  - TOEFL ibt (minimum score 80) or
  - TOEFL pbt (minimum score 550) or
  - B2 (advanced) level on the CEFR scale

Applicants fulfilling all previous criteria will be invited to an admission interview.
