

CHANGE THE WORLD UC CHALLENGE

One idea. A world of difference.

Join the challenge to develop innovative ideas with real-world impact. Create sustainable, scalable solutions for our partner, The Dow Academy in Botswana, that can serve many communities around the world.

The challenge offers multiple pathways, so whatever your skills and passion—technology, education, health sciences, design—you can make a difference!

The winning team will receive paid travel to Botswana to implement their solution on-site or to Cincinnati to consult with startup experts at UC's 1819 Innovation Hub.

*Travel is dependent on international and university travel policies.
An alternative award will be funded if necessary.*

Compete virtually with peers from around the world! Challenge open to students from UC and our strategic partner institutions.

The competition runs from
May 3 - August 27.
